Description of Proposed Works

Please describe the proposed works

Siting of two Air-Sourced Heat Pump (ASHP) units next to the western wall of the annexe. The models are the Vaillant Arotherm 12kw 125/6 models which can be viewed here:

https://www.vaillant.co.uk/specifiers/products/arotherm-plus-heat-pump-12kw-146691.html

This is a low noise level product (54dB).

They will need to be raised to boundary wall height (80cm) on a concrete platform which will not be visible. This is to enable sufficient airflow around the unit (50cm) for it to function effectively.

This aspect of wall is not visible from any public land. It is separated from the neighbour's house by around 500m, the other side of a field that belongs to them. A line of evergreens conceals the view of the annexe from the neighbour's property.
