Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. View government planning guidance on fire statements or access the fire statement template and guidance.
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or view government planning guidance on determination periods.

Description

Please describe details of the proposed development or works including any change of use

In the Atworth Village Hall car park, it can be very dark and muddy in the winter as there is no lights in this area and no lights are available from the surrounding houses. This has been a problem for some times and the subject has been brought up by some of the village hall user groups. The village hall management committee has recognised this issue and has raised a project to look at, price and hopefully install some lights in this area.
The area has been surveyed and the recommendation is to install three lights on separate poles. The poles would only be short ones and therefore would be approx. 1/3 the height of a normal street light pole. As both sides of the car park is covered with hedges and trees, it should not have any impact on the surrounding houses. It is hoped that these lights would be controlled by PIR switches. This mean that the lights would only go on when cars enter the car park, and stay lit for approx. 10 mins, after which the lights would go out. The lights would also be lit when users leave the hall and walk towards their cars. Again, the lights would go on for a short while until the cars leave the car park and therefore the lights would go out after approx. 10 mins. Obviously depending on the setting, the lights may come on if wildlife walks by after dark, but hopefully this could be controlled by the settings.
I have discussed these proposals with the immediate neighbours who backs onto the car park. I have highlighted the proposed PIR switch and its workings and I have discussed that it should not affect their property as the trees and hedges at the side of the car park, virtually eliminates any light reflection from the lights.
The car park is only used by village hall users groups during the time they are using the hall. In normal circumstances, user groups complete their activities by 21:15 at the latest in the evening, therefore the lights would not be used except for twice an evening during the nights they use the hall. The only other people who mainly use the car park are users of the recreation ground. As the recreation ground is closed during dusk to dawn, this should not have any affect on the lights being installed.
If additional information is required, please contact me.

Has the work or change of use already started?

◯ Yes
⊘ No

Existing Use

Please describe the current use of the site

This area is only used as a car park for users of the Atworth Village Hall and people using this area as a walk way to gain access to the recreation ground. It does not have any other use or by any other people.

Is the site currently vacant?

◯ Yes
⊘ No

Does the proposal involve any of the following? If Yes, you will need to submit an appropriate contamination assessment with your application.

Land which is known to be contaminated

◯ Yes
⊘ No

Land where contamination is suspected for all or part of the site

◯ Yes
⊘ No

A proposed use that would be particularly vulnerable to the presence of contamination

◯ Yes
⊘ No

Materials

Does the proposed development require any materials to be used externally?

⊘ Yes
◯ No

Please provide a description of existing and proposed materials and finishes to be used externally (including type, colour and name for each material)

Type:
Vehicle access and hard standing

Existing materials and finishes:
Existing material is a stones built into the round to create a base for the current car park

Proposed materials and finishes:
It is proposed that three aluminium poles will be installed on the side of the car park which would aluminate the car park when cars or users enter the car park. A small trench would be dug to provide a ducting for the electric cables to be installed from the lights to the electrics in the village hall.

Are you supplying additional information on submitted plans, drawings or a design and access statement?

◯ Yes
⊘ No

Pedestrian and Vehicle Access, Roads and Rights of Way

Is a new or altered vehicular access proposed to or from the public highway?

Trees and Hedges

Are there trees or hedges on the proposed development site?

◯ Yes
⊘ No

And/or: Are there trees or hedges on land adjacent to the proposed development site that could influence the development or might be important as part of the local landscape character?

◯ Yes
⊘ No

If Yes to either or both of the above, you may need to provide a full tree survey, at the discretion of the local planning authority. If a tree survey is required, this and the accompanying plan should be submitted alongside the application. The local planning authority should make clear on its website what the survey should contain, in accordance with the current 'BS5837: Trees in relation to design, demolition and construction - Recommendations'.

Assessment of Flood Risk

Is the site within an area at risk of flooding? (Check the location on the Government's Flood map for planning. You should also refer to national standing advice and your local planning authority requirements for information as necessary.)

◯ Yes
⊘ No

Is your proposal within 20 metres of a watercourse (e.g. river, stream or beck)?

◯ Yes
⊘ No

Will the proposal increase the flood risk elsewhere?

◯ Yes
⊘ No

How will surface water be disposed of?

☐ Sustainable drainage system

☐ Existing water course

☑ Soakaway

☐ Main sewer

☐ Pond/lake

Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.

a) Protected and priority species

◯ Yes, on the development site
◯ Yes, on land adjacent to or near the proposed development

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:
(a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

⊘ Yes
◯ No

If yes, please provide details of their name, role, and how they are related:
