Wiltshire Council

Town and Country Planning (Tree Preservation) (England) Regulations 2012

Notification of intention to carry out works to tree(s) within a Conservation Area

Application Reference Number: PL/2023/05715

Decision Date: 21 August 2023

Applicant:

Mr Alex Williams
Dyson Technology Ltd, Tetbury Hill, Malmesbury, Wiltshire, UK, SN16 0RP

Particulars of Development:

Overall Works
Approximately 38 trees have self seeded on the lower slopes of the roofs of two former aircraft hangars on Hullavington Airfield. These trees need to be removed in their entirety.
2 additional trees (1 non-native Thuja occidentalis) have self seeded within 10m of the frontage of H89 .
Tree Group 1
20 trees of species Euonymus Europaeus and Sambucus Nigra that have self seeded on the NW side of the roof of H90. They are relatively uniform in size varying from 5m to 8m in height with several multistems contributing to the overall canopy.
Tree Group 2
11 trees of species Euonymus Europaeus and Sambucus Nigra that have self seeded on SE side of the roof of H90. They are relatively uniform in size varying from 4m to 7m in height.
Tree Group 3
3 trees of species Euonymus Europaeus and Ligustrum vulgare that have self seeded on SW side of the roof of H89. Sizes of 3m - 6m in height.
Tree Group 4
2 Euonymus Europaeus 3m and 5m in height that have self seeded on NE side of the roof of H89.
Tree Group 5
1 Sambucus Nigra and 1 Thuja occidentalis that have self seeded within 10m of the frontage of H89. These trees are detracting from the open nature of the airfield, are too close to the historic hangar building and are of low amenity value.

Scheduled works are to fell all listed trees and not replant

	due to the structural damage they are causing to the roofs of the hangars.
At:	Hangers 89 & 90, Dyson technology Ltd. Hullavington AirfieldSn14 6GU

In pursuance of its powers under the above Act, the Council hereby raise NO OBJECTIONS to the above specified works to be carried out in accordance with the notification and plans submitted.

The work shall be carried out and completed within a two year period from the date of this notice.

The applicant should note that this notice does not affect any private property rights and therefore does not authorise the carrying out of any work on land, or entering land outside his/her control. If such works are required, it will be necessary for the applicant to obtain the landowners consent before work starts.

The applicant should note that the work hereby permitted should be carried out in accordance with good practice as set out in the BS 3998: 2010 British Standard Tree Work - Recommendations.

The applicant should note that under the terms of the Wildlife and Countryside Act (1981) and the Habitats Regulations (2010) it is an offence to disturb or harm any protected species, or to damage or disturb their habitat or resting place. Please note that this consent does not override the statutory protection afforded to any such species. In the event that your proposals could potentially affect a protected species you should seek the advice of a suitably qualified and experienced ecologist and consider the need for a licence from Natural England prior to commencing works. Please see Natural England's website for further information on protected species.

There is a legal duty of care incumbent on the customer and contractor that all commercial waste generated as a result of the works hereby authorised is safely contained, transported and disposed of lawfully in line with the Environmental Protection Act 1990 and Environmental Permitting Regulations 2016 (as well as any other related legislation). Failing to do so can lead to individuals or organisations being prosecuted for unlawful waste management.
