Description of Proposed Works

Please describe the proposals to alter, extend or demolish the listed building(s)

The upgrading of two rear windows and frames and the alteration of a third current rear window to be replaced with a French Door style opening onto the patio area. These windows are all located on the ground floor, they are not overlooked, and are situated in the modern "lean to" extention to the rear of the property. There will be no historic materials removed or replaced.

The replacement of three upper floor windows in the original area of the house. There will be no historic materials removed or replaced as the original wall has previously been replaced with blocks and rendered. The windows to be replaced are also modern.

The replacement of the current white uPVC sliding door with a stable door and surrounding brickwork matched carefully to the current bricks in situ in the surrounding wall of 40 Stockton. Again, this is all at the rear of the property, not overlooked, and in the modern lean to extention part at the rear of 40 Stockton.
