Figure 4

Fence and Court Detail – Example of court surfacing and fencing to be used at Dove House

1. Court Surfacing

The synthetic grass court surface blends well with adjacent lawned areas.

Green coloured porous synthetic grass surface.

2. Fencing

2 metre high fencing at both ends but dropping down to the lower height of 0.9 metres along the sides.

Black painted "invisible" posts and open mesh chain link fencing.

Notes:
(i) The fencing will appear even less visually significant within the context of the relatively lower lying court location at Dove House.

(ii) The Dove House court will be bounded by lawn and not incorporate a gravel surround.
