Electronic communications apparatus

Please specify the type of apparatus to be installed or altered (e.g. call box, mast)

The installation of a new sharable 21.20m monopole mast which is collocated with an existing mast approximately 300m to the east of the site. The proposal also includes the installation of 5no. operator cabinets, 1no. meter cabinet, 6no. antennas on 1no. headframe, 2no. 600mm diameter transmission link dishes and ancillary development thereto. The new base station is required due to the existing mast being unsuitable for the necessary upgrade of equipment. Additionally, the proposed mast will future proof the site as it has the capacity to host multiple operators equipment and the ability to host 5G technologies.

Please provide further details of the apparatus (e.g. height, size, colour etc)
