For the attention of James Webster

Dear James

Application PL/2023/05184 – Full Planning Permission
Retention of Electric Vehicle Charging Hub with Associated Works and Installation of a further 6 No Bay Electric Vehicle Charging Hub with Associated Works
Car Park, Leigh Delamere Motorway Services Westbound, Leigh Delemare
For Gridserve Sustainable Energy Ltd

Thank you for the opportunity of commenting on this Full Planning Application.

My Council met last evening and has asked me to forward the following comments to you.

The Council has no objections to the proposal.

However, during consideration, comment was made that it was a pity that only 6 No bays are being proposed and that additional bays should be considered.

The Council trusts that their views will be taken into consideration when the application is determined.

Yours sincerely

Vivian Vines

On behalf of Kington St Michael Parish Council
