

Proposed Deathwatch Beetle Treatment

Ground Floor
Apply Probor 20 to exposed lintels set over the front left and left wall openings.

First Floor
Rear Bedroom - Apply Probor 20 to the feet of the rear bearing of the centre and right-hand trusses. Inject existing drill holes with Probor 20.

Front Bathroom - Apply Probor 20 to the bearing ends of the beams on the front wall.

Front Bedroom/Bedroom 4 - Apply Probor 20 to the beams set on the front wall.

(for more details see full report)
