Re: 20 Smallbrook Lane, PL/2023/07590

I object to this application for a second vehicular access, and the building of another dwelling in this garden adjacent to Smallbrook Meadows.

It is a totally inappropriate place for development, creeping urbanisation of a very rural setting. The existing house should not have been allowed, but it's too late to change that. We can stop making it worse. Any development here will impact on users of the Reserve and its wildlife.

This is a lovely quiet country lane which dog owners like myself thoroughly appreciate. It is also very narrow and there is no room for vehicles to pass pedestrians or cyclists or horses. It can be a very busy lane in summer, with lots of unaccompanied children heading for the recreation area. It would be dangerous to increase the traffic to this end of the lane.

Yours faithfully,

[redacted]

Hilda Merritt.
