Description

Please describe details of the proposed development or works including any change of use

This application proposes the creation of a new access driveway for Ravensroost Stables, Minety, SN16 9RJ, in order to ease the burden of vehicles entering and exiting two separate properties via a currently shared driveway.

The property in question is equestrian in nature; the occupant of the neighbouring property is engaged in canine training activities. Although vehicle traffic using each property is differing in volume and size, ready access is frequently frustrated by vehicles having to wait in the road whilst others pass along the shared driveway and entrance gate, causing a needless obstruction of the highway.

An attached Design & Access Statement describes more fully the proposed layout and construction of the new driveway which will allow for safe access with minimal impact on the environment.
