Dear Sir/Madam,

DYSON TECHNOLOGY LTD
HANGAR 89, HULLAVINGTON AIRFIELD
NEW SECURITY FENCING AND DEMOLITION OF OUTBUILDINGS
PLANNING PORTAL REFERENCE: PP-12500954

On behalf of our client, Dyson Technology Ltd, we are pleased to submit an application seeking planning permission for new security fencing and gates at Hangar 89, Hullavington Airfield, along with the demolition of two small derelict outbuildings.

The proposed works are required to address ongoing security issues at the site. The nature of the fencing being proposed is entirely consistent with both the general character of an airfield and other fencing that can be found across this wider airfield. The two small outbuildings are derelict and unsafe.

The application comprises the following documents and drawings, in addition to this covering letter:

- Completed Application Form
- Heritage Statement
- Site Location Plan
- Existing Site Plan
- Proposed Site Plan
- Proposed Fence Specification
- Proposed Gate Specification
- Outbuilding 1 – Plans and Elevations
- Outbuilding 2 – Plans and Elevations
- Bat Roost Assessment of Outbuildings

The planning application fee of £234 for the fencing has been paid via the Planning Portal. The demolition in a conservation area element does not attract any application fee.

We trust that approval will be granted in due course for these works. In the meantime, we look forward to receiving confirmation that the application has been registered.

Yours faithfully

Julian Bolitho
