Subject: Land at West Dunley Farm, Littleton Drew

Hi Marc,

Just to update you, the county archaeologist has looked at the sketch plan for the dwelling at West Dunley Farm and has made the following comment.

“To confirm that I am happy that any further work can be conditioned if consent is granted. We would likely be looking at SMR excavation on the building footprint and I would need to understand the details of any other intrusive groundworks (eg landscaping/services) before advising on mitigation for those.”

SMR refers to an archaeological strip, map and record of the building plot, which is similar to an archaeological excavation. He will most likely put a watching brief on any service trenching or landscaping that involves significant groundwork.

Let me know if you need any further info.

Best wishes

Sam
