Tree Works Application:

Grooms Cottage

Tree: Pear

Location: Grooms Cottage, The Green, Biddestone, Chippenham SN14 7DG

Proposed work: Pear tree crown reduction by approximately 1 - 2 metres. Tree has become too large for the space. The canopy needs to be reduced to minimise its sail effect and in turn reduce the risk of branches snapping out. Reducing the pear tree will also help to boost fruit growth and increase light in the garden.
