Subject: SSEN Job Ref. FAA857 - Consultation request email

Good afternoon,

Please see the below link. I believe the works to uprate the existing single pole to that of a H Pole fall within the scope of permitted development, for the existing overhead line and wood poles, which supplies our distribution network.

I believe the only factor(s) for your consideration is that the works are within a SSSI impact zone.

Consultation request email

The views of your authority are required to inform the decision by the Secretary of State for Energy Security and Net Zero on an application for consent under Section 37 of the Electricity Act 1989 for a proposal to install or keep installed an electric line above ground. Application details, including associated documents, can be viewed on the Energy Portal which is accessible at the following link: http://itportal.beis.gov.uk/eip/public/section-37/consultee-overview/a4c30f24-72b1-498f-bb3f-c104291088b5/

Please do not hesitate to give me a call should you have any further queries or wish to discuss further.

Kind regards,

Richard.
