Barclays Bank Plc, 2-6 High Street, Salisbury SP1 2NP

The removal of one external ATM and the replacement of one external ATM

Design Component

This Italian Gothic style Barclays bank occupies a prominent position on the corner of High Street and Bridge Street. It consists of 3 storeys and is of stonework construction.

The Works

One of the existing external ATMs is to be removed and the aperture is to be infilled (stonemason required). The other external ATM is to be replaced and the aperture is to be altered to accommodate the new ATM. A new ATM pit is to be created (see structural survey).

Access

The ATMs are located to the right-hand side of the building on Bridge Street. The right-hand ATM is to be removed and the left-hand ATM is to be replaced.

Access to the branch will not be affected by the proposed works nor will they affect the public space.
