6 1.Please note that this consent does not override the statutory protection afforded to any protected species. All British bat species are protected under The Conservation of Habitats and Species Regulations 2010 (as amended), which implements the EC Directive 92/43/EEC in the United Kingdom, and the Wildlife and Countryside Act 1981 (as amended). This protection extends to individuals of the species and their roost features, whether occupied or not. If bats are discovered, all works should stop immediately and a licensed bat worker should be contacted for advice on any special precautions before continuing (including the need for a derogation licence from Natural

England).
2.Please also be advised that works should not take place that will harm nesting birds from March to August inclusive. All British birds (while nesting, building nests and sitting on eggs), their nests and eggs (with certain limited exceptions) are protected by law under Section 1 of the Wildlife and Countryside Act 1981 (as amended) and the Countryside and Rights of Way Act 2000. If birds are nesting on/in or within the vicinity of the proposed development, work should be undertaken outside the breeding season for birds to ensure their protection, i.e. works should only be undertaken between August and February. Further advice on the above can be sought from the Council Ecologists.
3.Barn Owls are included in Schedule 1 of the Wildlife & Countryside Act 1981. Within Part 1, Section 21 (1) the penalty for an offence involving a Barn Owl, it's nest, or egg, includes a fine of up to £5,000, or up to six months imprisonment, or both, per bird, nest or egg.
