PLANNING APPLICATION No: PL/2023/06990

My wife and I wish to object to this application for the following reasons ;-

This proposed development site is immediately adjacent to the garden of our property, Orchard House, 25A Shaw Hill, Shaw, SN12 8EU

The reason for our objection is Loss of Privacy. Three of the four sides of the proposed building plot protrude into our garden, with the intrusion penetrating to forty five percent of the width of the garden at that point. This detail is intended to indicate the perspective of the plot within the broader context of our property.

It is relevant to comment that the **position** of the plot relative to our property is not an issue. **Our objection is to the application for change of use from agriculture to residential.**

The proposed building would have a full, uninterrupted view of our house, which was built in the early nineteen seventies, and garden which has matured steadily during the ensuing years.

There are two existing detached, four bedroom houses forming part Home Farm. Additionally, planning permission exists for some of the former agricultural buildings to be converted into holiday accommodation. Whilst we have no discomfort whatsoever with any of these, **my wife and I wish to object strongly to the proposed intrusion into our home.**

Barry Graham Saint **Veronica Hermione Saint**
