Re: Furze Farm, Salisbury, Wiltshire, SP

The following amendments were made to the Furze Farm Planning Application (Ref No.18/11017/FUL) and previous Variation of Condition Application. (Ref No. 19/11984/VAR)

Furze Farm had a previous application which involved the change of use of part of the agricultural land to equestrian and erect a stable block within the land boundary. Over lockdown the stables were built and then converted into a holiday let in the hope of receiving planning approval. However, upon refusal it received an enforcement notice advising to return the barn conversion back into stable equipped for the care of horses.

The previous approval was for a stable block for 4 horses but upon taking the advice the proposed livery can only support 2 horses. Therefore, this amendment is for a 2-horse stable with a tack room and equipment store, toilet, and kitchen.

The amendment to the previous stable application is the omission of large double doors on the southwest elevation and the omission of windows on the northwest elevation.

Yours sincerely,

Paul Stevens

P Stevens
