To Whom It May Concern

I previously wrote in March 2022 confirming that my only next-door neighbour Mr Alan Beeden had a planning application approved for holiday accommodation, number - PL/2021/11036.

He has asked me if I have any concerns if he was able to raise the height of the ridge by about 400mm so as to form a conventional tiled finish over the whole roof rather than just tiles at the front elevation.

I would personally prefer that the roof would to be like this since I think it will look much better and it will also blend in with all the surrounding houses.

I wish to give my full support for this and have no objections in any way, in fact in March 2022 I did say that even if the roof were of a conventional type, a traditional gable profile, and it was far higher to achieve this that I would still have no objections.

Yours faithfully [redacted]

Mr Edwin Phibben
