Dear [redacted]

Thank you for the information.

We have discussed you request and while we have concerns for such an increase we have decided to offer an increase of upto 50 pitches on a trial basis, if this trial is successful and does not result in any reported issues we will consider a further increase the following season. Needless to say if there are reports of disturbance or inadequate supervision the offer will revert to the 20 pitches or removed outright.

We hope that you find this offer an acceptable comprmise.

Kind regards
Freedom Camping Club

Subject: RE: Marthas Down - Hindon

Good Afternoon,

Thank you for coming back to me.

° We are looking to open between May & October for general camping. Whilst we do not expect to ever reach the 90 unit capacity but we can live in hope. All booking must be made prior to arrival with at least 4 hours notice.

° There will be a trailer toilet unit on site permanently with lighting and hot running water. This will be supplemented with portable toilets located around the site during busier periods. If we find this venture to be successful then additional trailer toilets will be sited and the portable toilets removed.

° Flat waste tanks will be provided for the grey water which will be disposed of as and when required. (Mr Beale's primary company is liquid waste disposal and toilet hire)

° The gate will be coded, of which the code will be provided up on booking. During quieter periods the site will be checked multiple times per day and a 24 hour contact number displayed should there be any problems. We hope the site will be busy enough to warrant having a representative onsite during daylight hours with the 24 hour contact number displayed also.

With all booking having to be made prior to arrival we feel we will be able to make informed decisions on a week by week basis of what is required, with regards to additional toilets and on site representatives. All being well we hope to branch out to being able to offer cooked breakfasts, but this will of course depend on booking numbers.

[redacted] primary business will allow us to quickly react should we require additional toilets or grey waste removal.

I hope I have answered all your questions, however if you do require any more detail please do let me know.

Kindest regards

[redacted]

Dear [redacted]

Would you be proposing to use this capacity on specific events or throughout the summer period?
How many and what type of toilets would you be providing?
How is grey water to be dealt with?
How is the site being supervised?
