Subject: 20240301-133 Yarnbrook planning application-Flooding-Objection-PL-2023-11219

Good Morning,

Could I please make you aware of the flooding of the proposed site after just one days rain.

PFA: Photos of the proposed site flooded. This proves that on the application the proposer was either lying or had no idea of the extent of flooding and detrimental effect it has on the surrounding area.

Could I please ask that this is shared within the application and considered when the application goes through its hearing.

Many Thanks
Anne Shepherd.
