Description of Proposed Works

Please describe the proposed works

Removal of existing brambles, rubbish and dirt banks prior to erection of close board fence adjacent to New Road to protect occupants of West Barn from road traffic lights which shine into the property on three sides. Due to the angle and road height of both New Road and Stokes Marsh, as they approach the property, much of the fence will need to be at a height of 1.8 metres in order to provide protection. The fence would be at the lower height of 1.2 metres for the section where vehicle lights do not cause as much of a problem. It is proposed to plant a hedgerow of native species on the road side of the fence which will reduce the visual impact of the fence to the public. Over the years, the banks of the open ditch adjacent to the property have suffered from erosion and it is proposed to shore up the wall of the ditch on the side adjacent to the fence in order to provide a stable footing for the native hedgerow.
