5. What Are You Applying For?

Are you seeking consent for works to tree(s) subject to a TPO? ☐ Yes ☒ No

Are you wishing to carry out works to tree(s) in a conservation area? ☒ Yes ☐ No

6. Tree Preservation Order Details

If you know which TPO protects the tree(s), enter its title or number below.

7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

There are several trees in the garden which are now overgrown. The trees shade a significant proportion of the garden. We are also concerned that the larger trees may present a risk to neighbouring properties.

Pruning will be undertaken following RHS and Arboricultural Association guidance. All trees will be subject to annual maintenance. Further detail provided on the following page.

7. Identification Of Tree(s) And Description Of Works continued ...

T1: sweet cheery
Crown reduction by 1/4 to improve shape. Further crown thinning by ~15-20%.

T2: cotoneaster
Crown reduction by 1/3 and thinning by ~25%

T3: paradise apple
Remove watershoots. Reduce the height and spread by ~2m to create a uniform crown. Annual maintenance thereafter.

T4: laburnum
We are concerned that this tree poses a health & safety risk to our baby and therefore propose to remove it.

T5: paradise apple
Annual maintenance pruning.

T6: buckthorn
Following advice from a tree surgeon we propose to remove the tree.

T7: hornbeam
Crown reduction by ~1/3. Thinning by 1/3 each year over the next three years. Remove low level branch positioned over greenhouse.

T8: rowan
Reduce height by 1/3 and annual maintenance pruning thereafter.

T9: bay laurel
Reduce height and spread of tree by up to a maximum of 2m to create a more uniform bush shape.

T10: whitebeam
Height of tree to be reduced by ~2-3m. 10-15% thinning.

T11: crab apple
Reach of tree to be reduced by ~1-2m. 10-15% thinning.

T12: silver birch
Annual maintenance pruning.

8. Trees - Additional Information

Additional information may be attached to electronic communications or provided separately in paper format.

For all trees
A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes).
It would also be helpful if you provided details of any advice given on site by an LPA officer.
