STANDARD LIST OF MATERIALS FOR LINDEE LU CATTERY BUILDINGS

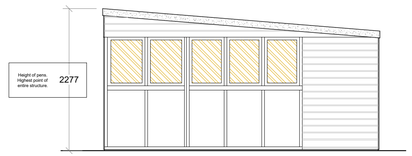

Quality Redwood Timber

50mm x 38mm framing (machined to a finished size of 44mm x 33mm)

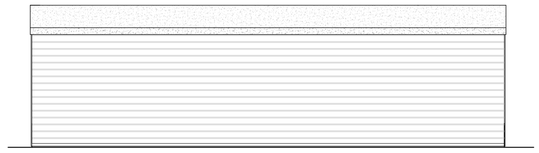

- 38mm x 38mm framing (machined to a finished size of 33mm x 33mm)
- 70mm x 38mm Framing
- 19mm tongue & groove Shiplap (machined to a finished size of 14mm)
- All timber is treated with a water based preservative stain with added wax and acrylic for extra weather protection.
- All houses fully insulated (including roof)
- Lined with 3mm, white, impervious acrylic sheets and sealed with waterproof sealant.
- UPVC internal, slide out shelving for easy cleaning
- Fully galvanised 16g 1" x 1" square mesh on all run panels (including roof)
- Adjustable air vents fitted in sleeping compartment doors
- Full height, acrylic sneeze barriers beaded and siliconed for added safety. Acrylic can be clear or solid white or a mixture according to customer preference
- Two sunning shelves in each exercise area manufactured in 18mm stained plywood
- One timber ladder leading from sunning shelf one into exercise area
- Lift out external shutters: Acrylic 'window' frames which are fully removable in warm weather for ventilation which give an outdoor feel for cats
- Catches, turn buttons, latches and fixings all galvanised or zinc plated
- 40mm thick solid insulated roof panels - colour TBC.
