13cm x 13cm hedgehog passes to be created in boundary fences (one pass per fence). These will be cut out of close board or panel fencing on the bottom of the fence, or a similar sized gap left at the end of a board/panel.

Additional habitat piles will be created, suitable for reptiles and amphibians, within Public Open Space. Ecologist to advise on final locations.

Key

- 82 Ibstock Enclosed Batbox C (or similar approved) to be integrated into walls of new buildings in pairs at a minimum height of 3m above ground, in locations not subject to lighting, avoiding north-facing aspects.
- 81 Manthorpe Swift Brick (or similar approved) to be installed onto new buildings at a minimum height of 5m above ground, ensuring that there is unobstructed access for birds entering and leaving. If possible, boxes should be sited under the shelter of eaves or overhanging roofs, avoiding south-facing aspects.
- 3 reptile hibernacula - positioned near scrub areas.
- 40 Bee Bricks - positioned south-facing at a minimum height of 1m from the ground.
- Hedgehog Pass
- Site boundary
