Wiltshire Council

The Town and Country Planning Act 1990

Approval of Full Planning Permission with Conditions

Application Reference Number: PL/2023/05442

Decision Date: 30 November 2023

Applicant:	Mr Peter Harding Tucks House, Foyle Hill, Shaftesbury, Dorset, SP7 0AG
Particulars of Development: **At:**	Demolition of existing barn and erection of 1No. New Barn Berrybrook Farm, Street Lane, Sedgehill, SP7 9JQ

In pursuance of its powers under the above Act, the Council hereby **GRANT PLANNING PERMISSION** for the above development to be carried out in accordance with the application and plans submitted (listed below).

In accordance with paragraph 38 of the National Planning Policy Framework, Wiltshire Council has worked proactively to secure this development to improve the economic, social and environmental conditions of the area.

Subject to the following conditions:

Conditions: (6)

1 The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

REASON: To comply with the provisions of Section 91 of the Town and Country Planning Act 1990 as amended by the Planning and Compulsory Purchase Act 2004.

2 The development hereby permitted shall be carried out in accordance with the following approved plans:

DWG No: 47 Rev A Site Location Plan Date Received 05.07.23
DWG No: 50 Rev B Proposed Site Layout Plan Date Received 10.07.23
DWG No: 52 Rev C Proposed Elevations, Floor and Roof Plan Date Received 10.07.23

REASON: For the avoidance of doubt and in the interest of proper planning.

3 The development hereby permitted shall be constructed in accordance with the material detail received by the Local Planning Authority in an email dated the 30th November 2023.

REASON: In the interests of visual amenity and the wider landscape area.

4 The development shall be carried out in strict accordance with the Preliminary Ecological Assessment dated June 2023, the Ecological Impact Assessment dated October 2023 and the Biodiversity Net Gain Assessment dated October 2023 undertaken by Darwin Ecology Ltd.

REASON: For the protection, mitigation and enhancement of biodiversity.

5 No new external lighting shall be installed on the development hereby permitted unless otherwise agreed in writing by the Local Planning Authority.

REASON: In the interests of conserving biodiversity.

6 Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 (as amended) or any Order revoking or re-enacting or amending that Order with or without modification), the building hereby permitted shall only be used for agricultural purposes associated with the holding known as Berrybrook Farm, Street Lane, Sedgehill, SP7 9JQ and for no other uses.

REASON: To safeguard the amenities and character of the area.

Informatives: (3)

1 There is a low risk that bats may occur at the development site. Many species of bat depend on buildings for roosting, with each having its own preferred type of roost. Most species roost in crevices such as under ridge tiles, behind roofing felt or in cavity walls and are therefore not often seen in the roof space. Bat roosts are protected all times by the Conservation of Habitats and Species (Amendment) (EU Exit) Regulations 2019 even when bats are temporarily absent because, being creatures of habit, they usually return to the same roost site every year. Planning permission for development does not provide a defence against prosecution under this legislation or substitute for the need to obtain a bat licence if an offence is likely. If bats or evidence of bats is found during the works, the applicant is advised to stop work and follow advice from an independent ecologist or the applicant is advised to follow the advice of a professional ecologist or to contact Natural England's Batline through the internet.

2 All British birds, their nests and eggs are protected under Section 1 of the Wildlife and Countryside Act 1981 (as amended) and the Countryside and Rights of Way Act 2000 while birds are nesting, building nests and sitting on eggs. The applicant is advised to check any structure or vegetation capable of supporting breeding birds and delay removing or altering such features until after young birds have fledged. Damage to extensive areas that could contain nests/breeding birds should be undertaken outside the breeding season. This season is usually taken to be the period between 1st March and 31st August but some species are known to breed outside these limits.

3 The habitat within the proposed development site and the surrounding area is suitable for roosting, foraging and commuting bats. An increase in artificial lux levels can deter bats which could result in roost abandonment and/or the severance of key foraging areas. This will likely result in a significant negative impact upon the health of bat populations across the region. Artificial light at night can have a substantial adverse effect on biodiversity. Any new lighting should be for the purposes for safe access and security and be in accordance with the appropriate Environmental Zone standards set out by the Institute of Lighting Engineers in their publication GN01:2021, 'Guidance for the Reduction of Obtrusive Light' (ILP, 2021), and Guidance note GN08-23 "Bats and artificial lighting in the UK", issued by the Bat Conservation Trust and Institution of Lighting Professionals.

Parvis Khansari - Corporate Director, Place

NOTES

1 **Other Necessary Consents.** This document only conveys permission for the proposed development under Part III of the Town and Country Planning Act 1990 and the applicant must also comply with all the byelaws, regulations and statutory provisions in force in the area and secure such other approvals and permissions as may be necessary under other parts of the Town and Country Planning Act 1990 or other legislation.

1.1 the need in appropriate cases to obtain approval under Building Regulations. **(The Building Regulations may be applicable to this proposal. Please contact the Council's Building Control team before considering work on site);**

1.2 the need to obtain an appropriate order if the proposal involves the stopping up or diversion of a public right of way or other highway (including highway verge);

1.3 the need to obtain a separate "Listed Building Consent" to the demolition, alteration or extension of any listed building of architectural or historic interest;

1.4 the need to make any appropriate arrangements under the Highways Act 1980, in respect of any works within the limits of a highway. The address of the Highway Authority is County Hall, Trowbridge, BA14 8JD (It is the responsibility of the applicant to ascertain whether the proposed development affects any listed building or public right of way / other highway, including highway verge).

2 **Appeals.** If the applicant is aggrieved by the decision of the local planning authority to grant permission subject to conditions, he may appeal to the Secretary of State for the Environment in accordance with Section 78(1) of the Town and Country Planning Act 1990 within six months of the date of this decision. (Information and forms relating to the appeals process can be found at the Planning Portal - http://www.planningportal.gov.uk/planning/appeals).

3 **Climate Change.** Wiltshire Council acknowledges the climate emergency and is seeking to make the county carbon neutral. You are encouraged to include energy efficiency that exceeds building regulations and to meet residual energy demand through renewable energy and low-carbon technologies, including high levels of electric vehicle charging points. The developer is encouraged to contact the climate team to discuss this further. climate@wiltshire.gov.uk
