Highway Development Control Consultation Response

Planning Application Ref: PL/2023/09912

Site Address: MOD Lyneham, Calne Road, Lyneham, Chippenham, SN15 4XX.

Proposal: Variation of condition 9 (approved plans) on PL/2021/11690 to swap the location of the Y Scale and Z Scale buildings as approved in the 2022.

Date of Consultation Response: 18/12/2023

I refer to the above application dated 16/11/2023 for the proposed variation of condition 9 (approved plans) on PL/2021/11690 to swap the location of the Y scale and Z scale buildings as approved.

It is proposed to alter the location of two buildings previously approved, this would not alter the quantum of development nor the provisions previously agreed for cycle storage, albeit the locations have altered.

I would not wish to raise an objection in relation to highways, the access, vehicle parking and vehicle trips associated with the development would remain unaltered and provisions have been made for the storage of cycles in line with required standards.
