# 1.0 ENTER first heading here

1.1 This Highways Technical Note has been prepared in respect of a proposal to construct a new access to serve an existing travellers site on land adjacent to Hawkeridge Road, Heywood, Westbury, BA13 4LE.

1.2 The highway authority has commented as part of a current planning application, noting the following:

*"I refer to the above planning application for a new access and relocation and extension of permitted dayroom (as its been built in a different location to that previously approved). I have no objection to the extension and relocation of the dayroom. The highway authority have consistently objected to new accesses for this site in the past due to the visibility to the North which falls considerably short of that required in the Design Manual for Roads and Bridges of 160 metres for a 50mph speed limit. Together with this the access is close to the end of the bridge parapet making it susceptible to damage. Furthermore the vertical infill of the parapet will obscure the view [looking north] when leaving the property. I therefore recommend that this application be refused on highway grounds for the following reason: The site has insufficient frontage to the NORTH to enable an access to be satisfactorily laid out incorporating the necessary visibility splays which are essential in the interests of highway safety."*

1.3 The following paragraphs summarise observed vehicle speeds past the site, and the implications this has in respect of achievable visibility (particularly to the north for nearside traffic flow).

## Visibility Splays

1.4 To ascertain an understanding of the existing vehicles speeds past the site, a 7-day Automated Traffic Counter (ATC) was placed to the north of the proposed access junction to capture southbound speeds. The ATC results are attached for reference at **Appendix A**.

1.5 Hawkeridge Road is subject to a 50 miles per hour speed limit. Table 2.1 below demonstrates that the 85$^{th}$ percentile vehicle speeds for vehicles travelling southbound is 44.1 miles per hour, which is notably below the posted speed limit.

1.6 Based on the guidance set out in Manual for Streets 2 (2010) it is considered that MfS stopping sight distances (SSDs) are applicable given that MfS SSD guidance is applicable to 40mph and 50+ mph roads "*subject to local context*" and that "*It is only where actual speeds are above 40mph for significant periods of the day that DMRB parameters for SSD are recommended*". Whilst speeds are generally above 40mph during the day, this is just a recommendation, and it is noted that there are various junctions in the vicinity of the site suggesting it is not an isolated access.

1.7 The following text is found in paragraph 1.3.2 of Manual for Streets 2:

*"Most MfS advice can be applied to a highway regardless of speed limit. It is therefore recommended that as a starting-point for any schemes affecting non-trunk roads, designers should start with MfS."*

1.8 Based on MfS guidance the required visibility splays would be 2.4m x 69.5 metres to the north of the site.

1.9 The required visibility splays have also been calculated based on the formula set out within Manual for Streets 2, but using the parameters set out within the Design Manual for Roads and Bridges (DMRB) for reaction time and deceleration rate. The calculation is shown for clarity in Table 1.1 below.

| Direction | Dry Speed (mph) | Dry Speed (kph) | SSD (metres) |
|---|---|---|---|
| Southbound | 44.1 miles per hour | 71.0 kilometres per hour | 69.5 metres (based on MfS Formula) |
| | | | 110.2 metres (based on MfS Formula with DMRB parameters) |

Table 1.1 - 85th Percentile Speeds and Stopping Sight Distance Calculations

1.10 Based on DMRB parameters, the required visibility splays would be 2.4m x 110.2 metres to the north of the site. This splay can be achieved, as illustrated in the access arrangement drawing attached at **Appendix B**. It is likely that some vegetation clearance will be required, although this can be achieved within the extent of highway land. Whilst it is also acknowledged that there is a vehicle restraint barrier to the north of the access, this does not fully obstruct visibility. Vehicles will be visible beyond the barrier, with the barrier only temporarily obstructing visibility. Alternatively the highway authority could require the application to fund the installation of an alternative restraint barrier that reduces an obstruction to visibility, which could be secured via a legal agreement.

1.11 Ultimately it is considered that suitable visibility can be achieved based on recorded vehicle speeds, suggesting a revised access would not be inherently unsafe.

# Appendix A

Speed Survey Data

# VEHICLE SPEED AND VOLUME SURVEY – B3097 HAWKERIDGE ROAD, WESTBURY, WILTSHIRE BA13 4LE.

**DATASETS:**

**Site:** B3097 Hawkeridge Road, south j/w Dursley Road, attached to bridge railings.
**Direction:** 5 - South bound A>B, North bound B>A. Lane: 0
**Survey Duration:** 00:00 20 May 2024 => 00:00 27 May 2024
**File:** Wiltshire29May2024.EC0 (Plus)
**Algorithm:** Advanced.

**PROFILE:**

**Included classes:** 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13
**Speed range:** 0 - 80 mph.
**Units:** Non-Metric (ft, mi, f/s, mph, lb, ton).

**DEFINITIONS / ABBREVIATIONS***

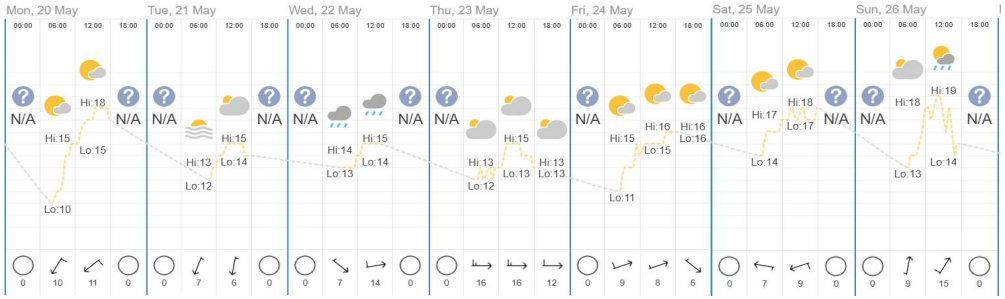

**Time** - Time period commencing. (1-hour summaries given).
**Total** - Total number of vehicles counted in time period.
**RunTot** - Running or cumulative total of vehicles over survey period.
**Vbin**
**30** (eg) - Number of vehicles between 30 and 35 mph (30.0 – 34.9).
**35**
**Mean** - Mean speed.
**Vmin** - Minimum speed.
**Vmax** - Maximum speed.
**n> PSL 50 -** Number of vehicles exceeding Posted Speed Limit 50 mph).
**%> PSL 50 -** Percentage of vehicles exceeding Posted Speed Limit (50 mph).
**Vpp 85** - 85th percentile speed.

*Not all definitions may be used in a single report.

**VEHICLE CLASSES**

| | | |
|---|---|---|
| **1** | **Bicycle** | |
| **2** | **Motor Cycle** | |
| **3** | **Car / Van** | (cars and vans - without trailer). |
| **4** | **Car / Van (T)** | (cars and vans towing trailer). |
| **5** | **R2 / Bus** | (HGV / bus 2-axle rigid). |
| **6** | **R3 / Bus** | (HGV / bus 3-axle rigid). |
| **7** | **R4** | (HGV 4-axle rigid). |
| **8** | **A3** | (HGV 3-axle articulated). |
| **9** | **A4** | (HGV 4-axle articulated). |
| **10** | **A5** | (HGV 5-axle articulated). |
| **11** | **A6** | (HGV 6-axle articulated). |
| **12** | **A6 [2]** | (HGV 6-axle articulated comprising two trailers). |
| **13** | **A7 [2]** | (HGV 7 + axle articulated comprising two trailers). |
