Dear planners

Here is a still from the video. It's a pity Wiltshire CC are unable to publish clips as the ambiance, the sounds of the shepherd whistling to control the sheep dog, for example, are all missed in a still picture

Further to my recent comments, I just wanted you to appreciate the change the proposed by the planning application above and have attached a clip to show my current view.

The attachment shows the current rural idle my property looks out upon, and the main reason I bought this property. This will be a building site for the next few years and then a housing estate.

Please balance decisions about meeting government targets with the demands on inadequate infrastructure, the nature of the Wiltshire countryside and the effect on current residents.

Kind regards

Andrew
