Dear Sir / Madam,

Re: Planning Application ref: PL/2024/05527 Land South of Westwells Road, Neston, SN13 9GB

I am writing today in support of the planning application PL/2024/045527. As a business, we have worked for and collaborated with Ark, in completing a number of projects over the last 5 years. It is likely that we will form part of the delivery team employed by Ark, should this application be successful, to act as main contractor for the development.

The repeat business that we have enjoyed through working with Ark at Spring Park, has allowed us to take offices in Hartham Park, Corsham, where we currently have on average 15 staff working on a daily basis, with the majority living in Wiltshire in the surrounding towns.

If this project is approved, as a business we would look to likely employ further local staff to sustain and grow our local office in Corsham for the duration of the PL/2024/05527 project, as such we fully support the application.

Yours sincerely
