

Support Local Farming
Support Renewable Energy
Support Ashton Keynes Green Energy

We're asking you to support our proposals for Ashton Keynes Green Energy (PL/2023/03359), a plan for a renewable bioenergy plant, located on land to the west of Ashton Road.

It would generate green fuel, supporting our transition to net zero and reducing dependence on foreign gas.

It will also provide local farmers with guaranteed income and natural fertiliser.

We're proud of our plans because they'll:

- Support local farmers who supply us, providing them with guaranteed revenue
- Provide natural fertiliser, reducing reliance on expensive imported artificial alternatives
- Help decarbonise our energy, transport and farming industries
- Our plans will generate enough energy to power 8,700 UK households, more than five times the number in South Cerney.
- Reduce our reliance on imported fossil-derived gas from unstable parts of the world, keep energy prices stable and maintain our industrial competitiveness
- Provide 15 full time equivalent jobs, with 35 further roles created in the supply chain

It only takes two minutes to support – scan the QR code to have your say!
Or fill out the form on the other side of this leaflet and hand back to us!

I support Ashton Keynes Green Energy because:

EXCELLENT FOR FARMS
