Preliminary Hedge Schedule

Site: Armishaws, Salisbury

Surveyor: Nick Baxter

Date of Survey: 21st November 2024

Hedge Number	Tree Species	Height (m)	No. of Stems	Stem Ø (cm)	Width (m)	Length (m)	Age Class	Overall Health	ULE (Years)	Condition & Site Notes	Category

Key Headings	Definition	Key Headings	Definition
Tree, Group or Hedge Number	Reference number for tree as illustrated on the accompanying plan.	1st Branch	This is a record of the height of the lowest branch. This is useful when planning access routes or considering if pruning will be required to site new features under a tree crown.
Species	Common name of the tree.	Tree Structural Condition & Site Notes	Observations of the trees structural integrity and notes of site features or property within falling distance.
Number in Group	Number of trees within a tree-group. The group may include more than one species of tree.	DBH	Diameter of the main trunk measured at 1.5m using diameter tape.
Height	Estimated tree height (m) from ground level.	Age Class	Y = Young, SM = Semi-Mature, EM = Early Mature, M = Mature, FM = Fully Mature, & V = Veteran
Stem/ Combined Stem Diameter	Single stem diameters are measured at 1.5m with a diameter tape. The combined stem diameters for trees with up to five stems and trees with more than five stems (MS) trees are calculated in accordance with the guidance. The stem diameters are measured in accordance with Figure C.1 of BS5837:2012.	Crown Spread Radius	The crown radius from tree trunk to crown limit identified at the four cardinal points (N, S, E and W) in order to allow presentation of the above ground constraints on the Tree Constraints Plan and Tree Protection Plan. Measurements are approximate and recorded to the nearest half metre.
Number of Stems	The number of stems is either 1, 2, 3, 4, 5 or MS (multi-stemmed). This influences how the root protection area is calculated.	ULE (Years)	Useful Life Expectancy. Anticipated future contribution to amenity, in years.
Overall health	A measure of physiological condition. G = Good, F = Fair, P = Poor and D = Dead.	Category	Tree category as defined within BS5837:2012. Categories A (high quality), B (moderate quality), C (low quality) & U (very low quality).
