

Images 7 & 8; (no.7 Main Street and adjacent thatched cottage); These are different types of dwelling to the proposed type, but they exhibit certain materials and details that have influenced the proposed design, such as stone window details, brick chimney detailing and brick window arches

Image 5. (no.2 Main Street) Casement joinery with arched brick lintels, warm brickwork, stone quoins under a gabled slate-covered roof form.

Image 6. (nos. 4 & 5a Main Street); Modern house with red brick and stone quoins, adjacent to a more historical slate-covered house with sash joinery, red brickwork and stone quoins albeit with rendered principal elevation.

Image 4. (Old Manor Farmhouse); Stone window sills and lintels, with stone quoins casement joinery and a gabled, slate-covered roof form.

Image 3. (Vale House) Warm red brickwork with stone quoins and sash joinery under a slate covered gabled roof form.

Image 1. no.5 Main Street is a key influence by virtue of its symmetrical principal elevation, ground floor bay windows, dressed stone quoins, sash joinery, stone window sills & lintels, slate roof covering, chimney details and roof gables with painted wood bargeboards.

Image 2. (Beach House) This property exhibits warm red brickwork with stone quoins and string course.
