Visit >

Our plan is to have Units A & B & K in Van dyke Brown
C & D Juniper Green
E, H and J Green

As it is a countryside setting and all the roofs are Cement Grey (C & D with solar panels) the applicant feels this will be a suitable colour scheme.

Email from Case Officer 30.09.25

Thank you for your email and suggestions for colours. Both appear to be fine to me and would suit the existing colour scheme at the farm.

Kind regards
Becky
