Description of Proposed Works

Please describe the proposals to alter, extend or demolish the listed building(s)

All work to be completed is to the front elevation of the house.

- 1: Removal of previous mortar repairs: Carefully remove existing poorly executed patches without damaging surrounding masonry
- 2: Repointing to open joints on masonry and copings using a natural hydraulic lime (nhl3.5) to match the original in colour, texture and strength, ensure mortar is compatible with the existing masonry to prevent further spalling or water ingress. Repoint only areas where necessary, leaving sound mortar intact.
- 3: Stone repair: Rake back all soft spalling areas of dressed Bath stone and repair with a lime based Bath stone dust restoration mortar. Repoint all open joints to Bath stone with a lime putty. Repair techniques will follow conservation methods to maintain the building's character.
- 4: Finishing: The new mortar will blend with the surrounding materials to preserve the aesthetic and historic character.
- 5: Purpose: to prevent further deterioration of the masonry and preserve the architectural detailing of the Grade II listed facade.
