

re PL/2024/05527

Dear Adam Mudge,

I am writing to object to the above planning application.

It is beginning to feel Westwells + Neston are going to be sacrificed like the Welsh village of Capel Celyn, Gwynedd, when it was flooded in 1965 to create the Trywern Reservoir.

Not only will there be a risk of flooding. Now it seems there is a strong possibility of exhaust pollution from the massive generators.

Now at the other end of

Neston planning application:-

PL/2025/05552

They want to build the massive Neston Battery storage units with the extremely high risk of toxic fires.

Westwells + Neston are being threatened with the possibility of flooding, pollution, toxic fires which can't easily be extinguished, noise + light pollution at night.

I am strongly objecting to both.

PL/2024/05527

PL/2025/05552

Yours faithfully
