Description of Proposed Works

Please describe the proposals to alter, extend or demolish the listed building(s)

The 2 rear windows of the cottage, currently have wooden, single glazed windows and frames. The proposed alterations are to replace the windows and frames with hardwood, double glazed units, which will be painted white, in keeping with the current ones. The windows need replacing as they are draughty, and so there is a heat efficiency issue. Condensation forms on the inside of the windows during the winter months, which can impact on the plaster work around the frames inside.

Has the development or work already been started without consent?

- ☐ Yes
☒ No

- ☐ Yes
☒ No

If the answer to any of these questions is Yes, please provide plans, drawings and photographs sufficient to identify the location, extent and character of the items to be removed. Also include the proposal for their replacement, including any new means of structural support, and state references for the plan(s)/drawing(s).

I have photos and drawings that I can attach.

The 2 windows that are to be replaced, can be taken out as a whole frame, and replaced with a new wooden frame, without causing any alteration or additional structural or building work to make good.

Each window, including frame, is 100cm wide and 110cm high.

Whereas the putty around the panes is intact for the majority, and some repairs have been made by previous owners, the windows are draughty and I am concerned by heat efficiency.
