

PROPOSED
NEW WINDOW
LOCATION.

SITE Plan
(2)

← No 5.
St Johns
COURT.

Location of the
door blocked up
within corridor.

Shows the outline of No 5.

The corridor gives access to the street.
The front door to No 5 is on the street.
Above the corridor there is a small
bathroom and a third bedroom.

The blocked up door is in the corridor,
and none of the neighbours are impacted
by this being changed to a window, which
would improve light in the front of the building
and essential ventilation.

A traditional box sash windows would be in
line with the kitchen windows.

Proposed ground level
