Details of the pre-application advice received

Spoke about possibility of using a composite door as replacement, this would have been visually like for like.

Was informed that a composite door wouldn't be supported and to look at repairing the door first and then replacing if repair not possible.

'A new door would require listed building consent and we would expect the door to be traditionally detailed. Also, where new doors are being introduced, they should enhance the appearance of the listed building by reintroducing historic character where it has been lost.

I recommend that you consider repair of the door, and failing that, submit a listed building application for a new painted timber replacement door to match the detailing of number 26a.'

I had the door and frame inspected by a Carpenter who has said its beyond repair. And now looking to get a replacement as instructed.

- (b) an elected member
- (c) related to a member of staff

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
