Details of the pre-application advice received

Conclusion to the pre-application advice letter as follows:

"A new flue liner is to be installed for a new condensing boiler to replace the existing boilers.

No formal Listed Building Consent is considered necessary in relation to the investigative works or the works to resolve the damp problems and redecorate and to instal a new flue liner to the existing flue.

The pre app was kept open as a management tool and to allow a record of the repairs and consideration of the need for any further Listed Building Consents.

The works have not harmed the listed buildings and have enabled the identification and resolution of a damp penetration problem with minimal invasive works and the impacts have been neutral on the listed building fabric.

A Listed Building Consent will retrospectively be submitted for the removal of the former stone cowl to this stack including an appropriate justification."

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
