Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

Change of use from 2 self-contained flats (Use Class C3) to a single family dwellinghouse (Use Class C3), with associated internal alterations.

Proposed works comprise:

Removal of internal partitions: Removal of stud walls, glazed screens, and doors that currently separate the communal hallway from the ground floor flat entrance and first floor flat entrance. This will create continuous internal access throughout the property, restoring the original house layout. The existing staircase will be retained.

Kitchen alterations: The first floor kitchen will be removed and converted into a utility room. The ground floor kitchen will be retained as the principal kitchen for the dwelling.

Bathroom alterations: The ground floor bathroom will be removed, with only the WC retained. The first floor bathroom will be retained as the main family bathroom.

Room reconfiguration: The existing ground floor bedroom will be converted to a living room. The existing first floor reception room will be converted to a master bedroom. The two existing first floor bedrooms will be retained as bedrooms.

Resulting accommodation: The converted property will provide a 3-bedroom, single-family dwellinghouse comprising: ground floor - entrance hall, living room, kitchen, WC; first floor - master bedroom, 2 further bedrooms, bathroom, utility room.

Justification: The proposed conversion will create a family home suitable for occupation by the applicant and spouse, with accommodation to accommodate a growing family. The current configuration as two separate flats (1-bed and 2-bed) does not provide suitable family accommodation.

All works are internal only. No external alterations are proposed to the building fabric, and no changes to the curtilage or parking arrangements are proposed

Has the work or change of use already started?

- ☐ Yes
☒ No

Existing Use

Please describe the current use of the site

The ground floor flat comprises 1 bedroom, 1 reception room, kitchen, and bathroom, with its own entrance accessed from a shared communal hallway. This flat is owner-occupied.

The first floor flat comprises 2 bedrooms, 1 reception room, kitchen, and bathroom, with its own entrance accessed from the shared communal hallway. This flat is currently tenanted.

Each flat operates as an independent dwelling with separate council tax assessments, individual postal addresses, and independent utility meters for gas, electricity, and water. Both flats have been established as separate residential units for a substantial period of time, though the exact date of conversion from the original single dwelling house is unknown. The property was originally constructed as a single family dwelling house.

Is the site currently vacant?

Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.

a) Protected and priority species

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

b) Designated sites, important habitats or other biodiversity features

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

c) Features of geological conservation importance

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Over 25 square metres

Please justify the reason why biodiversity net gain does not apply:

This development is exempt from Biodiversity Net Gain requirements as it falls within the de minimis exemption criteria. The proposed works consist entirely of internal alterations to an existing residential building, including: • Removal of one kitchen • Internal reconfiguration of rooms • Restoration of internal access between floors • No external ground works • No changes to building footprint • No impact on external curtilage or garden areas • No loss or degradation of habitats The development involves no works that would result in habitat loss or degradation. All works are confined to the internal fabric of the existing building and do not affect any biodiversity habitats on or adjacent to the site. The proposal therefore qualifies as de minimis under the Biodiversity Net Gain regulations and the statutory requirement does not apply

Note: Please read the help text for further information why developments may be exempt or not in scope.

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
