Description of Proposed Works

Please describe the proposed works

The existing building was a former 'gate house' to the Wincombe Estate and has been used as a single residence for many years. The existing building is in need of a general overhaul. It is suffering from damp to the walls and floors, it has no insulation and the roof requires repair. The bathroom and kitchen all require replacement and the mechanical and electrical service need upgrading and bringing up to current safety standards. Along with the upgrading of the building's fabric, some alteration works would benefit the building. There are currently two first floor bedrooms but one is accessed from the other. The proposal is to install a new pitched roof on the existing flat roof, so creating independent access to the two bedrooms.

- ☒ Yes

If Yes, please describe:

There is an existing entrance drive off the highway which serves Wincombe Lodge. Vehicles can pull off the highway and there is approximately 8m in front of the entrance gate. Residents have in the past parked outside the gate or entered the site and parked to the side of the track. The existing single garage structure in between the existing building and hedge will be removed and a parking area created to the south of the bridle path/track. This will open the building up to light and air and assist in dealing with the damp issues.

This is subject to exemptions, an exemption applies in relation to planning permission for a development which is the subject of a householder application, within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order (2015)*.
