Young trees of stem diameter &lt;150mm are excluded</p> <p>U category trees are trees of poor quality which have less than 10 years remaining contribution to the site. These trees are normally removed.</p> <p>The Root Protection Area (RPA) indicates the minimum area of ground which requires protection in order to preserve enough roots to ensure the healthy retention of the A and B category trees on site.</p> <p>The RPA is calculated using the British Standard BS5837: 2012 Trees in relation to Design, Demolition and Construction - Recommendations.</p> <p>The RPA is capped to 707m<sup>2</sup> which is equivalent to a circle of radius 15m. Where site constraints dictate, the RPA is offset to reflect restrictions to root development.</p> |  | <p>Drawing No: RSKHL_8795.25 TCP</p> <p>Rev: V1.0</p> <div>  <p><b>Hi-Line</b><br/>TREE MANAGEMENT, CONSULTANCY &amp; TRAINING</p> </div> <p>RSK Hi-Line Ltd<br/>Brookfield Yard<br/>Tebdurn Road<br/>Exeter EX4 2HF</p> |  | <p>Site: Melksham Hospital - West Extents<br/>Spa Road<br/>Melksham<br/>SN12 7NZ</p> <p>Client: Kendall Kingscott Ltd</p> <p>Date: 06/08/2025      Drawn by: DH      Checked by: TJ</p> <p>Scale: 1:200 A2</p> <p>North to top of page </p> |  |
