Subject: Planning application no PL/2025/08741

You don't often get email from [REDACTED] [Learn why this is important](#)

Dear Mr Crozier,

I am writing to you to raise a small concern about the planning application (PL/2025/08741) that involves the demolition of property 90A, Wood Lane and "the erection of 5 dwelling houses instead, with matters of access to be considered".

I live next door at 90, Wood Lane and I have the same landlord as the family at 90A.

My concern is with the phrasing about the access all these five houses will have to the main street. 90A is a typical bungalow. I can see two semi-detached houses being built in its place without problem, but five would seriously limit access to the main road.

There is a small gate between 90A and 90 (where I live) which is currently unused because it is overtaken by brambles and which the postman used to use for his own convenience when delivering the mail.

If this gate will be used for up to five new different neighbours, that means I am looking at the prospect of having a bunch of strangers popping up in my front garden at unexpected times during the day and night and limiting my rights as a tenant 'to enjoy my privacy while occupying the property and the garden', according to my renting contract.

This also poses risks to safety for me [REDACTED]

Likewise, I hope the phrase "with matters of access to be considered" does not involve building in a new gate in my back garden, either, for the same reasons mentioned above.

All things considered, I suppose the landlord is free to build whatever he/she wishes on these three properties (90A, 90 and 92). However, each property should be clearly defined and have clear boundaries, so that future tenants and/or owners can enjoy some level of privacy while occupying them.

I hope you will give my letter your due consideration and I look forward to hearing from you.

Sincerely,

Alina Henly,

[REDACTED]
