Proposed Demolition Works

Please describe the building(s) to be demolished

A cluster of three vacant brick-built buildings of a total of 382m2 GIA constructed around 1941/1942. B252 was originally constructed to generate town gas, B254 and B257 were technical facilities.

B254 and B257 have been out of use for over 20 years. B254 was used for support services but its condition forced closure in c 2017.

Please state the reasons why demolition needs to take place

These building were withdrawn from Dstl use around in the early 2000's however B254 remained in use until c 2017 by a support contractor until building condition forced closure.

All these buildings are surplus to requirements and are of no future benefit. All have been mothballed and the site fenced off. All are showing significant signs of deterioration.

To avoid health and safety issues the buildings will be demolished and the slabs and foundations removed, however the site will be left in a safe condition e.g. all voids will be backfilled.

There are no current plans for re-development.

Please describe the proposed method of demolition

- A professional demolition contractor will be engaged to undertake the works under an approved government framework.
- All works will be carried out to BS:6187 (2011) Code of Practice for Full and Partial Demolition by fully trained CPCS and CCDO operatives.
- A comprehensive Method Statement and Risk Assessment will be provided and approved by Dstl prior to works commencing.
- The perimeter will be fenced, access controlled through lockable gates, and appropriate safety and information notices applied.
- Equipment and welfare facilities will be set up within the site perimeter.
- Dust suppression equipment will be in place for the duration of the works.
- Services to all buildings will be isolated and isolation certificates provided.
- Asbestos identified through prior professional surveys will be removed and disposed of under a safe system of work iaw the Control of Asbestos Regulations 2012. Emergent issues will lead to a stop work until an appropriate safe way forward is agreed.
- Internal fittings will be stripped out – internal walls, ceilings, doors, floor finishes, sanitaryware, M&E etc. iaw the Method Statement.
- The structures, building slabs and foundations will be demolished under a SSOW using appropriate mechanical equipment under supervision. Suitability for demolition of each building will be assessed by competent professionals prior to and during the works.
- Waste will be segregated into appropriate skips and removed from the site, with waste management records kept.
- Equipment and facilities will then be removed and the site left in a clean and tidy condition

How and where would spoil/rubble be disposed of?

Waste will be segregated into appropriate streams and removed from site for disposal at an approved location and in an approved manner.

Please provide details of the proposed restoration of the site

All excavations will be backfilled with inert material to leave all areas safe and level.

When do you expect the works to commence (date must be post application submission)?

02/02/2026

When do you expect the works to be completed (date must be post application submission)?

28/08/2026

Are there any public Rights of Way within the site or immediately adjoining the site?

- ☐ Yes
☒ No

Is redevelopment or rebuilding proposed at a later date?

- ☐ Yes
☒ No

Does the proposal involve the felling or pruning of any tree(s)?

- ☐ Yes
☒ No

Site Visit

Can the site be seen from a public road, public footpath, bridleway or other public land?

- ☐ Yes
☒ No

If the planning authority needs to make an appointment to carry out a site visit, whom should they contact?

- ☐ The agent
☒ The applicant
☐ Other person

Pre-application Advice

Has assistance or prior advice been sought from the local authority about this application?

- ☐ Yes
☒ No

Declaration

I/We hereby apply for Prior Approval: Demolition of building as described in the questions answered, details provided, and the accompanying plans/drawings and additional information.
I/We confirm that, to the best of my/our knowledge, any facts stated are true and accurate and any opinions given are the genuine opinions of the person(s) giving them.
I/We also accept that, in accordance with the Planning Portal's terms and conditions:
- Once submitted, this information will be made available to the Local Planning Authority and, once validated by them, be published as part of a public register and on the authority's website;
- Our system will automatically generate and send you emails in regard to the submission of this application.

☒ I / We agree to the outlined declaration

Signed

George Hudson
