

EXISTING VEGETATION

Please refer to the accompanying AIA and Ecology Report for further details on species, condition and maintenance requirements

ROOT PROTECTION AREA
Please refer to the accompanying tree survey for further details on species and condition

PROPOSED TREES
Refer to the planting schedule for details on species,
quantities and specification

WILDFLOWER PLANTING
Refer to the planting schedule for details on species, quantities and specification. Where wildflower is proposed on existing grass and within RPA it will be overseeded

HEDGEROW / TRRE EDGE WILDFLOWER
Refer to the planting schedule for details on species, quantities and specification. Where wildflower is proposed on existing grass and within RPA it will be overseeded and no dig required

NATIVE WHIP PLANTING
Refer to the planting schedule for details on species, quantities and specification

MARGINAL PLANTING EDGE MIX
Refer to the planting schedule for details on species, quantities and specification

MARGINAL PLANTING WET MIX
Refer to the planting schedule for details on species, quantities and specification

AMENITY GRASS
To be seeded in the POS and turfed in the plot gardens

SHRUBS
Refer to the planting schedule for details on species, quantities and specification

SWALE WILDFLOWER MIX
Refer to the planting schedule or further details

TREES TO BE REMOVED
Please refer to the accompanying tree survey for further details on species and condition

WOODLAND WILDFLOWER PLANTING
Please refer to the accompanying tree survey for further details on species and condition

FLOWERING GRASS MIX
Overseeding in areas of existing grassland with flowering wildflower grass mix. Refer to schedule for further details

MARGINAL PLANTING BY STREAM
Overseeding along stream bank. Refer to schedule for further details and ecology plan.

hibernacula PILES

Provide hibernacula/ resting places for fauna such as reptiles, mammals and invertebrates.

Constructed from dead wood and rubble, topped with loose soil and turf. Dimensions to be a minimum of 2m length x 1m width x 1m height.

BENCH
Timber and steel bench - supplier tbc

Sign at entrance r- refer to LPA Lap requirements for details on text on sign

contrasting coloured outward facing self closing gate

Refer to the planting schedule for details on species, quantities and specification

TROWBRIDGE

Description	Frequency	Severity	Duration	Impact	Action
1. Identify the problem: The first step is to identify the problem or issue that is causing the concern. This could be a change in behavior, a physical symptom, or a change in mood. 2. Observe and record: Once the problem is identified, the next step is to observe and record the behavior or symptom. This can be done by keeping a journal or using a tracking tool. 3. Seek professional help: If the problem persists or worsens, it is important to seek professional help. This could be a doctor, a therapist, or a counselor. 4. Follow the treatment plan: Once a professional has been consulted, it is important to follow the treatment plan that is recommended. This may include medication, therapy, or lifestyle changes. 5. Monitor progress: It is important to monitor progress and report any changes to the professional. This will help them adjust the treatment plan if necessary.	1. Frequency: How often the problem occurs. This could be daily, weekly, or monthly. 2. Severity: How severe the problem is. This could be mild, moderate, or severe. 3. Duration: How long the problem has been occurring. This could be a few days, a few weeks, or a few months. 4. Impact: How the problem is affecting the person's life. This could be in terms of mood, behavior, or physical health.	1. Frequency: How often the problem occurs. This could be daily, weekly, or monthly. 2. Severity: How severe the problem is. This could be mild, moderate, or severe. 3. Duration: How long the problem has been occurring. This could be a few days, a few weeks, or a few months. 4. Impact: How the problem is affecting the person's life. This could be in terms of mood, behavior, or physical health.	1. Frequency: How often the problem occurs.
