Description of Proposed Works

Please describe the proposals to alter, extend or demolish the listed building(s)

The aim of the proposal is to install a new Openreacg 'fibre node box' on the right-side wall of the building. This will be positioned next to an existing 'copper node' which is already fixed to the building in the same place.

The purpose of the Openreach fibre node is to provide full fibre broadband to businesses/customers that are currently fed off of the existing copper node on the wall.

The new fibre node is made of plastic. The size of the new node is Height 30 mm (1.18 in) Width 134 mm (5.28 in) Depth 58 mm (2.28 in). This is smaller than the existing node it will be placed adjacent to.

The node will need to be screwed into the wall with 6 screws and wall plugs for fixing, 3 top and 3 bottom. All cabling will be routed neatly to avoid clutter or unnecessary intrusion.
