

LISTED BUILDING - PROPOSED WORKS

DIMENSIONS: 134 mm (w) x 30 mm (h) x 58mm (d)

To install a black "fibre node box" on to the side elevation of the building. It is a rectangular box with a plastic enclosure.

The grey arrow shows where this will be fixed to the building. Fixed with **6 x screws**. All cabling will be routed neatly to avoid clutter or unnecessary intrusion.

To be positioned on the right wall of building, to the right side of the existing copper node box.
