

3rd Dec 2025

To Helena Corney

It is with some concern, I find myself writing this letter, due to the inclosed Planning Application.

Have had to do this by letter, as have a very bad right hand, so unable to use a computer. Plus I am at the age, where my life does not need one.

my concerns are

1) where is the waste going as there is no room at the back for any bins, or are we to be over run with rats.

2) As the block of flats I live in is right behind, the said address, most of the people have under lining health matters, I myself have every bad lungs, so need my windows open 24/7.

So where is the extraction/ventilation system going, or are the flat going to have to live with bad air all the time.

3) It's the fire risk that is my main concern, with so many flats so close to address, and most have gas going to them, how many lives would be lost.

4) Do we need another food outlet in the market place.

yours

A.P Gore (Andrew. P. GANE

A copy of this letter will be sent to Cllr Ben Reed and Brian Matthew M.P.
