

20251209 - Photos and Specification for Tree Works to
Conservation Area within Avebury Village

i. Southwest Sector of Avebury Henge / boundary with Sports Field

Description: Previously reduced Ash tree continuing to decline. Tree is not dead (Sept 2025) and there is still some potential for viable regrowth but also some high-level deadwood.

Proposals: Remove dead/dying limbs and pollard tree back to good growth points as indicated and monitor to see if this tree recovers as a pollard.

ii. **Southwest Sector of Avebury Henge / boundary with Sports Field**

Description: Boundary trees (1x Ash and 2x Beech)

Proposal: Light crown lifting to remove lowest branch(es) to allow sports field mower to pass safely underneath.

iii. **Manor Parkland, Avebury**

Description: Mature sycamore with single crossing/dipping limb within the crown that is now resting on adjoining branch and presents a hazard to the Manor Drive if it failed.

Proposal: Remove crossing limb within crown - outlined in red but not really visible in this photograph. This removal will not be apparent and not visible when the tree is back in leaf.

iv. **Silbury House - Avebury**

Description: Overgrown multi-stemmed Leylandii (or Lawsons Cypress *Cupressus sp.*) overshadowing the garden and impacting the adjoining Yew tree. Multi-stemmed base and expanding root plate starting to impact the adjoining sarsen stone wall.

Proposed work: Fell tree to ground level.

v. Silbury House, Avebury

Description: Ornamental Holly – Growing very large and blocking light to front of property.

Proposed work: Reduce crown by 30-40%.

vi. **The Lodge, Avebury**

Description: Mature sycamore tree. One cavity defect identified to branch over the High Street carpark. Poor union with main stem.

Proposed work: Arrange climbing inspect and remove branch if union between branch and stem appear weakened by the presence of cavity.

vii. The Lodge, Avebury

Description: Overgrown Goat Willow (*Salix sp.*) leaning/pushing against existing brick wall.

Proposed work: Remove leaning stem only that is against wall (red circle).

viii. Manor Park - Avebury

Description: Deadwood to Lime trees adjacent to temporary car park.

1. Lime
tree – tag 4941

2 Lime tree - tag 4940

3. Lime Tree – Tag 4939

4. Lime tree - tag 4938

Proposed work: Remove dead wood to 4 x Lime trees

ix. NT Staff Car Park - Avebury

Description: Dying crown to field maple following squirrel damage.

Proposed work: Pollard tree to allow recovery.
